

PRODUCT IDENTIFICATION

Name: Red Globe Grape
Origin: Peru

DESCRIPTION

The Reg globe variety represents 75% of the total grape exportations of Peru. Our Reg Glove grapes crops are in the Makes valley, in the province of Arequipa in Peru.

The Red Globe variety has big grape clusters with big grape berries which can be similar to a plum. It has seeds and tastes sweet.

It keeps good conditions when cold and it is very resistant to transportation. It does not present phytosanitary problems but it is sensitive to fruit overload; its vigor can be affected.

FACT SHEET

Scientific name: Vitis vinifera
Name: Vitaceae
Variety: Red Globe
Berry color: Dark red with a light shine
Berry shape: Redonda
Average size: 24-28 mm
Type: With seeds
Bunch size: Very big
